REFORM IMPLEMENTATION DIVISION

No. RID/KRDP/3rd Tranche conditions /2017-18/

Date: 30.10.2017

Under Secretary,
Govt. of India,
Ministry of MSME,
Udyog Bhavan,
New Delhi – 110 011.

Sub : Compliance of 3rd tranche conditions under KRDP for implementation of Management Information system in 400 KIs - regarding

Sir,

Kindly refer to the 3rd Tranche restructured conditions under KRDP which requires to be compiled as per the timeline of ADB.

In this regard, it is to inform that the 9th tranche condition states that "KVIC shall have implemented the management information system in 400 KIs" have been fulfilled by KVIC. The status is as follows :

Finalised restructured tranche condition	Evidence	Status as on 30 th Oct 2017
KVIC shall have implemented the management information system in 400 KIs.	Progress Report on fully operational MIS in 400 Khadi Institutions	Completed. MIS implemented in all 400 KIs. One of the KIs progress report developed on MIS is attached alongwith the report.

The progress report on MIS as evidences of compliance is enclosed.

It is, therefore, requested to kindly forward the documents to ADB for further needful action.

Yours faithfully,

Encl: As above

Dy. Chief Executive Officer (RID)

30-10-2017

Annexure IV: List of 1837 KIs for which MIS has been made operational and master data is uploaded	45

1. Background

Khadi and Village Industry (KVI) subsector contributes significantly to the non-farm sector in India. At present, there are more than 2000 Khadi Institutions (KIs) in India. The Khadi Reform Development Programme (KRDP) initiated by Ministry of Micro Small and Medium Enterprises (MoMSME) with support from Asian Development Bank (ADB) envisages to strengthen the sector through sectoral reforms.

The KVI sector is highly dispersed with more than 2000 Khadi Institutions spread across various parts of the country and KVIC coordinates with these institutions through its network of field offices (Zonal offices/ State offices) and monitor the performance of KIs by collecting information on production, sales, earning, employment generated, fund utilization, benefits passed on to artisans, etc. The collection of information is manual in nature with the state office procuring the information from the local Khadi Institutions and then consolidating the same. As a result it leads to various operational issues including the time taken in the entire process as well as the quality and sanctity of the information. Hence to resolve these critical issues, comprehensive IT interventions are being implemented for reshaping the Khadi sector through development of IT applications and imparting related infrastructure and trainings to the stakeholders. One of the key intervention under KRDP is development and implementation of Management Information System (MIS) software for Khadi Institutions, for the IT enablement of their key functions and processes e.g. artisan management, procurement and production, billing, accounts, etc.

As per the original framework under KRDP, implementation of MIS was planned for 300 KIs which was then expanded to 400 Khadi Institutions during the restructuring of the original program in 2016. The MIS was further made available to all KIs.

2. Need and Rationale

There is a significant amount of production and marketing information being generated at KI level which gets compiled at various levels within KVIC. Most of these institutions have been managing this information in hard-copies/ ledgers/ Excel in isolated manner resulting in delay in preparing reports.

In the absence of an IT enabled MIS system, it has become difficult and time consuming task for KIs to manage the data related to inventory, productions, sales, artisans and other functions of KIs. This results in delay in preparing MDA reports, calculation of artisans' wages/ incentives etc. Further, it is important for KVIC to track the disbursement and utilization of funds under various schemes, payment made to artisans, etc. As artisans are the end beneficiaries of the schemes implemented by KVIC. It is essential to monitor the effectiveness of these schemes to ensure that the planned benefits are reaching the artisans as per the program objectives. For monitoring the expenditure and support extended by KIs to artisans, it requires a supporting system to record and track the transactions of KIs on a day to basis and information from such system should be made available to KVIC on a regular basis. It is also required to support KIs in managing efficiently the financial operations on a day to day basis and reducing the work load significantly in accounting and reporting.

The key objectives of MIS implementation include:

- Enhancing productivity of KIs and artisans by simplifying processes- data management and reporting
- Provide real time visibility on production, sales, earning and employment generated in KVI sector
- Encourage KI in devoting more time in value adding activities such as understanding market trends, product design and marketing, sales etc.
- Monitoring of fund disbursement and utilisation up-to artisan level
- Single point information availability at KVIC through consolidation of information from KIs
- Create central repository of information for performance tracking and analysis
- Protect the confidentiality, availability and integrity of data
- Timely and accurate information for each stakeholders builds understanding and ownership

3. Progress in MIS Implementation

As per the requirement under the second tranche, a stand-alone MIS software with limited functionality of web was developed and implemented in 100 KIs. During the implementation phase, it was observed that stand-alone installations of MIS at KIs may be enhanced to address the issues of software maintenance and system upgradation. Hence, KVIC took the initiative to develop a fully web based MIS IT system which could be leveraged not only by the 400 selected Khadi Institutions, but by all the Khadi Institutions engaged in the sector and across the country. In order to support KIs in MIS implementation, KVIC is providing necessary technical and administrative support including supply of hardware items, hand-on training on MIS, etc. KVIC has hired a third party implementation vendor to supply of hardware items and to support KVIC and KIs in the implementation process.

As on 31 October 2017, MIS has been made operational for more than 1800 KIs. The master data required for carrying out transactions has been uploaded in the MIS for 1837 KIs (List of KIs is attached in Annexure- IV). The MIS is now operationalized for all the KIs. However, it will take some time for all KIs to fully utilise all the functional modules of the MIS. KVIC has supplied the necessary hardware items to around 390 KIs that had indicated the need for such support as part of their action plans and has set-up a help-desk at KVIC Central Office to monitor the MIS implementation. KVIC has conducted a number of training sessions across the 6 zones and developed a user manual to familiarize the end users on various functionalities of MIS. The progress report elaborates on the activities undertaken in development and implementation of MIS.

3.1. Selection of Software Implementation Vendor

KVIC had invited bids from interested parties for development, customization, implementation and support of MIS system through Request for Proposal (RFP) dated 04 January 2011 through leading newspapers across the country. As per the suggestion of Standing Committee, techno-commercial evaluation (QCBS) was adopted in the and accordingly. Due to iteration in the bid process, the selection of vendor could take place only in February 2012. For the development and implementation of MIS package, a software vendor M/S GS Softcom was selected as an

implementation vendor by KVIC which developed the stand-alone MIS software for the implementation of MIS in 100 KIs as part of the second tranche condition.

3.2. Development of MIS Package

The software vendor developed the MIS package as per the requirements of KVIC and KIs. The MIS has various functionalities including capturing transactions pertaining to various processes of supply chain i.e. procurement of raw material, spinning and weaving by artisans, calculation of artisans payment and other incentives, billing, sales, accounts, grievance monitoring etc. During the software development period, a lot of stakeholder consultations were undertaken for the preparation of the MIS package. At a broad level, module wise key functionalities of MIS are provided below:

1. Procurement and Production Management

- Records details of all type of procurement – from all sources
- Records details of issues/receipts of raw material / finished products to and from spinners/weavers
- Assessment of MDA

2. Artisans Management

- Captures complete information of artisans including Bank details
- Maintains artisan wise information on production, payment/ incentive received
- Captures record of MDA disbursement
- Integration with KIOSK machine

3. Sales & Billing

- Supports PC and hand-held devices for billing
- Records sales details (product wise, centre wise)

4. Inventory Management

- Bar-coding of Khadi and VI products
- Provides current availability of items

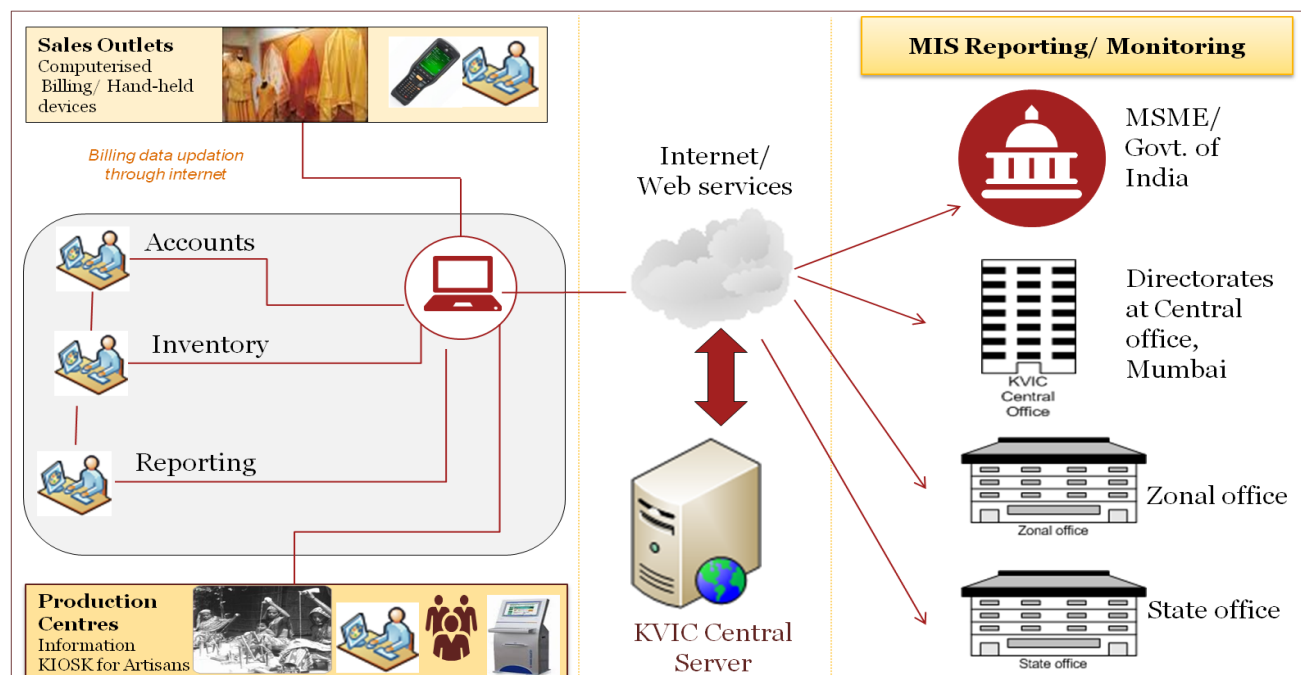

5. Accounts

- Accounting for all units (HO, Sales outlet, production centres)
- Captures billing data for retail sales
- Captures payments (supplier/ artisans)

6. MIS Reporting

- Stock Reports
- Reports regarding retail sales e.g. Daily Summary, Monthly Summary, Counter wise Sales
- MIS Reports

The system architecture of MIS is provided below:

The MIS captures data related to various functions of KI starting from procurement of raw material to sales and generates reports as per user requirements. Data related to artisans, procurement and current inventory/ stock is entered at KI's head office whereas sales/billing information is captured at sales outlets. For capturing the sales information, the MIS software has been customised to support billing through local computer and hand-held devices. In case of LAN / WAN / GPRS connectivity, data can be directly transferred to KI's head office.

In case of adequate power availability at production centre, the MIS can capture artisan wise production data at production centre. However, production related data can also be entered at KI head office. As part of hardware support to KIs, KVIC has also supplied KOISK machines to more than 50 KIs which can be used by Artisans to view production and payment details.

During the implementation phase, it was observed that stand-alone installation of MIS at KIs leads to software maintenance and upgradation issues. KVIC invited bids for selecting an IT vendor for development of web based software but the same got cancelled later as the Bids received were not meeting minimum qualification/technical criteria. Subsequently, the top management of KVIC directed Directorate of IT (DIT) to develop the web based software in house and roll-out in other 300 Khadi Institutions. DIT took the initiative and developed a fully web based MIS extending its functionalities to cover all the Khadi Institutions spread across the country. A user manual developed by DIT for KI users is attached in Annexure-III.

The web based MIS system is developed in-house by Directorate of IT, KVIC. In the web-based MIS which has been developed incorporating best features of stand-alone MIS with many additional upgradations like inclusion of GST and integration with existing systems. In the new system, various technical issues faced in standalone implementations were addressed and design

was upgraded to make the system more user-friendly. Following tables provides key upgradations done in the new web based MIS:

Sr. No.	Standalone MIS	New Web-based MIS
1	Needs manual installation at KI head office and sales outlets.	The new system is completely web based and does not need manual/ individual installation at KI level.
2	The system was not compatible with latest GST provisions.	Compatible with latest GST/ tax provisions.
3	No integration with MDA and existing accounting systems	Integration with MDA and Accounting system of KVIC for real-time data sharing. Data management in web-based system is more centralised and secure.
4	More time was required in set-up and installation of MIS	Less time required in MIS implementation
5	Hardware/ Desktop required for operating the MIS at KI level were with large storage capacity.	Only minimum hardware items required for accessing the web-based system is required.

Screen-shots of web-based MIS:

Web-link of KI- MIS Software: (www.kviconline.gov.in)

In order to support KIs in MIS implementation, KVIC is providing necessary technical and administrative support including supply of hardware items, hand-on training on MIS, etc. KVIC has hired a third party implementation vendor to supply of hardware items and to support KVIC and KIs in the implementation process for 400 KIs covered under Direct Reform Assistance. The other KIs are being trained to use the MIS using their existing IT infrastructure and also being oriented to invest in resources to adopt the MIS. The web-enabled version of MIS provides state/ zone wise summary information which is collated and stored in a centralised database for reporting and monitoring.

Technical Specifications

The Integrated MIS is a single unified information system integrating various functions of Khadi Institutions. The Integrated MIS is characterized by the following features:

- a. **Modularity:** The system has been developed with modular approach and allows addition of more modules or more users in any module as and when required, which will seamlessly integrate into the core system.
- b. **Flexibility:** The system supports customization to Khadi Institution's requirements and will be adaptable to changing practices. In case a need arises to customize to the requirements of Khadi Institutions, the same will be done in the form of add-ons and routines that can be plugged/unplugged from the base product as the situation arises.
- c. **Open Architecture:** The system is open to allow interoperability with general-purpose software and have the facility to export/ import data files from other applications.
- d. **Integration:** The system is fully integrated across modules and functional areas and also across geographical location of sites. It will have the ability to assign validation on specific fields based on entries in the data validation reference file.
- e. **Workflow integration approach:** The system will support workflow to automatically raise alerts, messaging etc. across functional areas/modules.
- f. **Internet and Intranet enabled:** The system is able to function in Internet, Intranet and Web. Client server architecture at the Institutional level and Browser based/Web-services above the level of Institutions with capability of batch processing for data porting.

- g. **Single Point data entry:** The system will be able to have data entered into the computer system once to ensure integrity of data and that there are no redundancies in the data.
- h. **Scalability:** The system is scalable to handle 5 concurrent users at each KI location of institutions without compromising response time or efficiency of operations:
 - I. Scalability in terms of the volumes of transactions handled: This provides the facility to enhance software capacities to maintain the performance levels
 - II. Scalability in terms of integration with existing software: This provides seamless integration with heterogeneous systems at the backend with ease of deployment of the applications and services.
- i. **Security:** The system has proper security and maintenance facility which limited access to the system and its various functions to the users delegated with appropriate authority.
 - I. Access to modules / functions within modules restricted to authorized users
 - II. Provide logging by user and terminal, the date and time of all transactions with details of creation, reading, updating, deletion or printing.
 - III. Set up user access, according to user defined rank, etc.
 - IV. Control on scope of activity of each user (data file, program, module, screen, data table, record, field, etc.)
- j. **India - Localized:** The system has adequate localization to handle specific requirements of statutory Indian Laws, GST/tax and duty legislation and other India / state specific regulations, including tax and regulatory requirements of different states considering the PAN Indian presence of KVIC and Khadi Institutions.
- k. **User Interface:** The user interfaces is user friendly and GUI/browser based. There are sufficient edit and validation checks in the system. It provides safeguards to prevent damage to data from operator errors, simultaneous updates, module unavailability or system failures. The system provides consistent screen layouts and access methods across all modules so that they look and behave the same. It will provide on-line error reporting and use a menu-based system with facilities to bypass menus by experienced operators.
- l. **Data update and validation:** The system provides facility for 'single point data entry at source' and fully integrated, unified and interfaced so that there are no redundancies. It has the ability to have an update occur in one module and be immediately available to all other modules of the system even between geographically dispersed sites.

3.3. Implementation of MIS in Khadi Institutions

The implementation of MIS software in Khadi Institutions has been done in two phases:

Phase-I	Phase-II
<ul style="list-style-type: none">• Hardware items and other necessary support was provided• Standalone software MIS was supplied to 100 KIs• Trainings were conducted• Pilot Implementation was conducted	<ul style="list-style-type: none">• KVIC developed a fully web based MIS extending its coverage to all Khadi Institutions• Hardware and specific support provided• Training sessions conducted• Login-id and Password have been created for KIs to enable on-line access and capturing data into MIS

The implementation of MIS package comprises of following activities:

- Funding support to selected KIs for refurbishment of the infrastructure for setting up the system
- Hardware supply to KIs covered under DRA
- Installation of software with support of the vendor
- Support of vendor for data migration
- Training of the KI staff in basic computer operations and for operating MIS

After development of prototype of the MIS, it was decided to implement the MIS package in two phases as mentioned below:

1. **Pilot Phase-** During the pilot phase, 8 KIs were selected across different geographies. Out of 8 KIs, the MIS package was implemented in 7 KIs (The list of 7 KIs is provided in Annexure-I). The pilot implementation of new web based MIS was done in Kerala Sarvodaya Sangh.
2. **Roll-out Phase-** During the implementation phase, the KVIC is providing necessary assistance to 400 KIs on following components :
 - a. **Supply and Implementation of MIS to Khadi Institutions:** KVIC has already developed a web-based software covering key functions and processes for Khadi Institutions. In the first phase of roll-out in 100 KIs, software CDs along with installation & user manual and minimum required hardware specifications have been sent to 100 Khadi Institutions.(List of 100 KIs is provided in Annexure-I)

- b. In the first phase, a workstation was installed at KI head office and was connected to 3-4 client machines in LAN. Production centres were provided with a computer to update daily production details. In case of unavailability of internet / reliable power connection/ IT skilled person at production centre, provision of entering data from KI head office was kept in the system. Sales centres were provided computers with pre-installed KI-MIS software and SIM based hand-held devices for billing purpose.
- c. In the second phase, KVIC converted the stand-alone MIS into a fully developed web-based MIS which caters to the requirements of more than 400 KIs and facilitates KIs to use various features of MIS online and generate reports as per their requirements (List of 400 KIs is provided in Annexure-II). The system has been integrated with the existing MDA system developed by KVIC and upgraded with GST also.

Case Study- Kerla Sarvodaya Sangh

Kerla Sarvoday Sangh is one of the identified institutions under KRDP where the web-based MIS has been implemented. The KI is using the online MIS for capturing transactions related to stock, production, and sales and generates various reports. Branch wise Login-ids and Passwords were created and shared with KI.

Stock details: The MIS has the provision of maintaining batch wise/ counter wise stock details. The stock report shows item wise quantity, pieces, and rate, amount, barcode and supplier details. KI can generate reports in PDF format.

Sales details: For capturing sales transactions, KVIC has provided bar code readers to Khadi Institutions which allows them to scan the code and generate bill for the customers. KIs can generate report of all the sales transactions done for a given period. Any rebate/ discount given to customer is also captured in MIS. A facility to read the bar code through mobile and generate bill is also provided in MIS.

order to faster implementation process, KVIC has already procured and delivered

necessary hardware (Desktops, Printers etc.) and conducted training sessions. KVIC has created login-ids and password for more than 400 KIs and developed user-manuals to help Khadi Institutions in carrying out transactions in MIS. As of 31 Oct, many of the Khadi Institutions have already started entering data into MIS. A screenshot of report generated from KI-MIS software is provided below:

- e. **Hardware Procurement:** The procurement of necessary hardware items for installation of MIS is done by KVIC Central Office. In the first phase, following hardware item procured by KVIC.

Procurement through DGS&D (RC) Procurement through Open Tendering

Work Station- (a)	Barcode printer
Intel Xeon E 3	Barcode scanner
Processor based	
HDD 1000 GB SATA	Network switch
RAM 8 GB	Hand held Device
Monitor Dell high resolution	Laser Printer
Desktop	Flatbed Scanner
Intel core i5, MS Windows 7	Smartcard Reader
Information KIOSK	
IKPC-19 processor based. Free standing type	
USB based key board	
UPS	
APC- Online UPS. 3	

KVA. Backup time 60 mins

Webcam

10 MP.

In the second phase, KVIC invited Bids for selection of a competent vendor for supply and maintenance of hardware items and to provide handholding & implementation support to Khadi Institutions on web based KIMIS software implementation in 300 Khadi Institutions. Following hardware items have been supplied to Khadi Institutions:

- Desktop computer
- Barcode Printer
- Barcode Scanner
- Laser Printer

In the second phase, only hardware items required for operating the online MIS and capturing billing and sales transactions were provided.

Hands-on training on MIS: KVIC has organized number of training sessions for KIs. The training covers overview of MIS software, installation of software, usage of software modules (Accounts, Stock, Sales, Artisans Data Management and Reporting), KI data entry, regular data updation, reporting etc. A team of 3 persons (Chairman/ Secretary, IT Assistant/ Computer Operator, Accountant) from each of the KIs was called for the training session. As on October 15th, more than 400 Khadi Institutions were provided trainings on MIS and IT applications.

(Screenshots of KI-MIS Training)

Progress Report: IT-MIS implementation in 400 Khadi Institutions

3.4. Benefits of MIS Implementation

- 1. Reducing manual workload on KIs-** KI-MIS has streamlined many of the processes of Khadi Institutions starting from procurement to sales. It is supporting KIs effectively manage data and information generated in Khadi supply chain and eliminating the burden of maintaining data in ledgers/ hard-copies. Now data is being captured in MIS system and reports of same can be generated in a single click. Since the transactions related to purchase, production and sales are being captured in MIS, this enables KIs in coordinate their long-term plans based on the data and trends available with them. The modules are interconnected and therefore, the user does not need to enter same data again which actually reduces time in generating reports through MIS.
- 2. Monitoring of fund disbursement and utilisation up-to Artisan level:** The integration of KIs' information at KVIC level through MIS will help KVIC and MSME track fund disbursement and utilisation with respect to various schemes running for the welfare of Artisans and KIs. The software is integrated with MDA system which keeps record of MDA and other benefits given to Artisans.
- 3. Provide quick and easy information access to KI and KVIC for planning and decision making:** After the KIMIS implementation, most of the data required by KVIC for monitoring KVI performance is made available in the software which is helping KVIC in generating various reports with less efforts. Data is maintained in centralised server allowing KVIC and MSME to generate reports at few mouse clicks and do quick analysis and take decisions based on latest and updated information available with them. The KIMIS enhances the visibility of the information by capturing large volume of data from Khadi institutions and fulfilling the reporting requirements of KVIC, KIs and other stakeholders for analysis and decision making. Timely and accurate information for stakeholders builds understanding and ownership.
- 4. Enhanced skills:** Adoption of KIMIS at this stage provides window to KI staff in understating the new IT enabled processes. It is enhancing the involvement of KI staff in other value adding activities such as understanding market trends, product design and marketing, sales etc.
- 5. Central Repository of KI information:** A centralised database at KVIC level is created wherein all the key information of KIs is available for quick reference and reporting. This information will be a key aid in planning and budgeting. Implementation of web based KI-MIS aims to produce a simple and robust data warehouse and facilitate the KVIC in monitoring of performance of KVI institutions

KI-MIS is collating the information captured at KI level and stores in a centralised database for reporting purpose. The system provides detailed summary and analytical reports for decision makers for enabling continual improvement and remedial measures. MIS reports have a drill down feature wherein the user can start analysing the performance starting at the top level and drill down to the lowest level.

4. Key Challenges and Action Taken

The key challenges and action taken to address the challenges in MIS implementation are as follows:

Area	Key Challenges	Action Taken
Site Preparation	In many of the KIs, the basic infrastructure for setting-up computers and other equipment for using MIS was not adequate.	<ul style="list-style-type: none"> • KVIC provided funding support to KIs for setting up basic infrastructure. • State offices were given responsibility to check and monitor the progress of activities related to MIS.
IT Readiness Level/ Capacity Building	Due to lack of computerization at KI level, it was very difficult for KI staff to use transaction based system like MIS. The use of MIS without understanding of computer/ office productivity tools was a challenge.	<ul style="list-style-type: none"> • KVIC provided basic computer trainings to the selected KIs. This has resulted in easy adoption of MIS by KI staff. • In order to assist KI in operating MIS package, KVIC issued guidelines for appointment of IT assistant. • KVIC also organized workshops/ review meetings at Central office/ State offices.
Software Development	Development of customised software keeping in mind the requirements/ different processes of KIs across the states was a challenge.	<ul style="list-style-type: none"> • KVIC organized stakeholders meetings to incorporate best possible IT enabled process in MIS package.

5. Next Steps

The way forward in this regard is mentioned below:

1. **Adoption of MIS in all KIs:** The current version of MIS is being implemented in all KIs. However, many KIs do not have readiness to adopt the MIS. In order to implement the same across all KIs, various activities like supply of basic hardware items, hands-on training to KIs on need and usage of MIS, appointment of IT assistant , etc. could be extended to needy KIs who are not being covered under DRA.
2. **Upgradation of MIS software on Continuous basis:** It is very important to upgrade the software to incorporate the new requirements. For example, the master data related to Khadi and VI products will need continuous updations to enable transactions by KIs. Also, regular

updates will address the technical problems being faced by the end user and will improve ease-of-use in order to save time and efforts.

- 3. Continuous monitoring and reporting:** Since KVIC is rolling-out MIS in all the KIs, it is important to monitor the performance of KIs through the output generated from MIS. Dedicated team should be deployed in head office to handle all operations related to MIS functioning and assist management in generating various reports for monitoring.
- 4. Continuous awareness generation and capacity building exercise:** Apart from providing IT related support to KIs (software and hardware), there is a need to create awareness among KIs for adoption of IT enabled systems and processes. The benefits associated with the use of MIS and other components should be communicated to end users. Focus should be given to impart hands-on training to KIs. The role of field offices is critical in creating awareness among KIs.
- 5. Integration with IFMS:** Integration of MIS with existing systems developed by KVIC is one of the important aspects. The MIS has been developed with features of integrating and sharing data with other systems for the purpose of reporting and monitoring. The MIS shall be integrated with budgeting and accounting module of IFMS for sharing details pertaining to Artisans, Production and Sales and reflecting the same in fund disbursement and utilisation reports.

Annexure

Annexure I: List of KIs identified for Pilot Implementation in Phase-I

8 Khadi Institutions selected for pilot implementation

Sl. No	Name of Khadi Institution
1	Satish Sarvoday Varati, H.O. 137 B. B Sen Road, Berhampore, Murshidabad, WB-742101
2	Tamilnadu Sarvoday Sangh, Gandhi Nagar, Dist-Tirupur, Tamilnadu-641603
3	Kerala Sarvodaya Sangh, Gandhi Ashram, Civil Station, Vill. & Post – Vengeri, Dist. Kozhikode, Kerala
4	Dharwad Taluka Garag Kshetriya Seva Sangh H.O. 1st floor, city complex, old grass market, Dharwad, Karnataka-580001
5	Sawaraja Sangh Kotananduru, H.O Gandhi Bhavan , Maddalavari Street, Door No.3-32-3 Kothapeta, Tuni-533401 (AP)
6	Udyog Bharti Udyog Bharti Chowk, Gondal, Dist- Rajkot, Gujrat-360311
7	Madhya Bharat Khadi Gramodyog Sangh, Khadi Sadan, Jiwali Ganj, Lakshar, Gwailor - 474001 Madhya Pradesh
8	Jaisalmar Zila Khadi Gramodyog Parishad, Jaisalmer, Rajasthan-345001

List of 100 KIs (including pilot) selected for MIS in Phase-I

State wise Breakup

STEP No:- 6 (C)

Enter details of sellers or purchaser by Selecting category from "type" list as pointed below :-

The screenshot shows the 'UPDATE FORM' with the following fields: Institution Code (0), KVVC Institution Code (1231), Main Institution Name (Pallakad khadi institution), Type (-Select-), Name, Address (House No., Door No. Etc), Address2 (Street Road etc), City, State (-Select-), District (-Select-), Landline No (STD CODE: (1), (2)), Fax No, Mobile No, email ID, CST NO, TIN NO, GSTN / UIN NO, TAN NO, Active Yes/No (Yes), and Deactive Remarks. A callout bubble points to the 'Type' dropdown with the text 'Click here to select category'. A 'Save Data' button is at the bottom.

The screenshot shows the 'UPDATE FORM' with the 'Type' dropdown menu open, displaying a list of categories: -Select-, Institution Head Office, Institution Branch Office, Supplier, Customer, Customer/Supplier, Departmental Bhavan, Central Silver Plant, Govt. Organisation, Central Silver Plant of KVVC, Central Vastagar of KVVC, Departmental Bhavan of KVVC, Khadi Institutions of KVVC, Khadi Institutions of KVIB, and Others. A callout bubble points to the list with the text 'Select from this list'. A 'Save Data' button is at the bottom.

STEP No:- 6 (D)

Kindly click on "save data" button to save the details as pointed below :-

The screenshot shows the 'UPDATE FORM' with the following fields: Institution Code (4220014106), KVVC Institution Code (1231), Main Institution Name (Pallakad khadi institution), Type (Supplier), Name (NEW supplier), Address (House No., Door No. Etc) (thane), Address2 (Street Road etc) (mumbai), City (mumbai), Pincode (111111), State (ANDHRA PRADESH), District (GUNTUR), Landline No (STD CODE: (1), (2)), Fax No, Mobile No, email ID, CST NO, TIN NO, GSTN / UIN NO (123445FGGGD), TAN NO, Active Yes/No (Yes), and Deactive Remarks. A callout bubble points to the 'Save Data' button with the text 'Click here to save updated Details'.

STEP No:- 6 (E)

Created customer/supplier details will appear as shown below :-

The screenshot displays the KIMIS interface. At the top, there is a navigation bar with buttons for Home, Supplier/Customer, Product Master, Upload Inst. Logo, reports, and logout. Below this is a status bar showing Code 4220014101, USER TYPE HOADMIN, NAME Pallakad khadi institution, Today's Date and Time Wed Aug 23 16:31:00 IST 2017, and FY: 2017-18. The main content area shows a table titled 'Customer / Supplier Details' with columns for Institution Type, Supplier/Customer Code, Name, Address, City, District, State, and GSTN / UIN NO. The table contains one entry for a 'Supplier' with code 4220014106, name 'NEW supplier', address 'thane', city 'mumbai', district 'GUNTUR', state 'ANDHRA PRADESH', and GSTN/ UIN NO. '123445FGGGD'. An 'Update' button is visible next to the entry. A callout bubble points to this button with the text 'Click here to update Details'. Below the table, there are 'Previous' and 'Next' navigation buttons, and a page number '1'.

Institution Type	Supplier/Customer Code	Name	Address	City	District	State	GSTN / UIN NO.	
Supplier	4220014106	NEW supplier	thane	mumbai	GUNTUR	ANDHRA PRADESH	123445FGGGD	Update

STEP No:- 7 (A)

Click on 'Product Master' button for adding up items detail as pointed below:-

The screenshot displays the KIMIS interface. At the top, there is a navigation bar with buttons for Home, Supplier/Customer, Product Master, Upload Inst. Logo, reports, and logout. Below this is a status bar showing Code 4220014101, USER TYPE HOADMIN, NAME Pallakad khadi institution, Today's Date and Time Wed Aug 23 14:19:24 IST 2017, and FY: 2017-18. A callout bubble points to the 'Product Master' button with the text 'Click here'.

STEP No:- 7 (B)

Next, 'Counter wise Products Add Master' form will appear as displayed here:-

The image displays three sequential screenshots of the 'Counter Wise Product Add Master' form, illustrating the steps to select a product group and sub-group.

First Screenshot: The form is in its initial state. The 'Select Main Product Group' and 'Select Second Sub Product Group' dropdown menus are both set to '-Select-'. A callout bubble points to these dropdowns with the text: "Click here to select Product Group and sub Group".

Second Screenshot: The 'Select Main Product Group' dropdown is open, showing a list of product groups. 'COTTON KHADI' is selected and highlighted in blue. A callout bubble points to this list with the text: "Select Main Group from the list shown here".

Third Screenshot: The 'Select Second Sub Product Group' dropdown is open, showing a list of sub-groups. 'SAREES' is selected and highlighted in blue. A callout bubble points to this list with the text: "Select Sub Group from the list".

The form fields include:

- Select Main Product Group: -Select-
- Select Second Sub Product Group: -Select-
- Enter Product Name: [Text Field]
- Product Short Name on Bill Print: [Text Field]
- Select Product Type : (Countable/Measureable): -Select-
- HSN CODE: [Text Field]
- Goods and Service Tax (GST) : 0% (MINIMUM/NORMAL)
- GST on Sales Value Amount: [Text Field]
- Goods and Service Tax (GST) : 0% (MAX)
- Rebate MDA/Discount Applicable: No
- Save Data button

STEP No:- 7 (C)

Add your product details under 'Main Product Group' and 'Second Sub Product Group' by selecting from list available :-

Counter Wise Product Add Master	
Select Main Product Group:	COTTON KHADI
Select Second Sub Product Group	SAREES
Enter Product Name:	Banarasi Saree
Product Short Name on Bill Print:	Banarasi Saree
Select Product Type : (Countable/Measureable)	Measureable
HSN CODE	1234567
Goods and Service Tax (GST) :	28 % GST (MINIMUM/NORMAL)
GST on Sales Value Amount	
Goods and Service Tax (GST) :	0% (MAX)
Rebate MDA/Discount Applicable:	Yes
Save Data	

Click here to save Products detail

STEP No:- 7 (D)

Saved Product details will appear as displayed below:-
