## PROJECT REPORT

## Of

## TOILET PAPER ROLL

## PURPOSE OF THE DOCUMENT

This particular pre-feasibility is regarding Toilet Paper Roll.

The objective of the pre-feasibility report is primarily to facilitate potential entrepreneurs in project identification for investment and in order to serve his objective; the document covers various aspects of the project concept development, start-up, marketing, finance and management.
[We can modify the project capacity and project cost as per your requirement. We can also prepare project report on any subject as per your requirement.]

## TOILET PAPER ROLL

## Introduction

Toilet paper, sometimes called toilet tissue in Britain, is a tissue paper product primarily used to clean the anus and surrounding area of faecal material after defecation and to clean. It also acts as a layer of protection for the hands during these processes. It is usually supplied as a long strip of perforated paper wrapped around a paperboard core for storage in a dispenser near a toilet. Most modern toilet paper in the developed world is designed to decompose in septic tanks, whereas some other bathroom and facial tissues are not. Toilet paper comes in various numbers of plies (layers of thickness), from one- to six-ply, with more back-to-back plies providing greater strength and absorbency.

The use of paper for hygiene has been recorded in China in the 6th century AD, with specifically manufactured toilet paper being massproduced in the 14th century.[2] Modern commercial toilet paper originated in the 19th century, with a patent for roll-based dispensers being made in 1883.

## Description of Toilet Paper Roll Machine

## Machinery for Toilet Paper Roll includes the following:

- Main Machinery (Automatic/ Normal)

Toilet paper Machines are used to produce total paper in bulk quantities. With the help of this machine the work of feeding,
shredding, threading and giving it finish completes in a very short span. This machine is mostly used in the paper making industries to make different types of paper roll etc.

These Automatic toilet Paper roll Machines are very much helpful in folding the jumbo roll either into the shape or square or rectangular as per the need. Its speed is outstanding and totally controlled by the Control device. Besides, because of the cutting-edge technology, it also counts the number of roll it produces at a time. An extra remote for handling the device is attached in the machine, so, one can control its speed while operating the machine.

## Toilet Paper Roll Market Analysis

By 2025, it is anticipated that India has almost one-third of the world market for tissue paper machines. During the forecast period, there will be only a small change in the market share of the region. India was the world's largest global woven paper packaging market in 2018. It is also expected to participate very much in the line of kitchen roll, toilet paper roll packaging. In addition, the market will have favourable prospects in this country. The average sale price of machinery in India is very low and the penetration rate of low capacity packaging machines is high. Therefore, Korea offers an environment to help expand the market. It is likely that India will enjoy a strong implementation in the world market of tissue paper packaging machines.

## Toilet Paper Roll Manufacturing Process

- Load the Jumbo roll on the machine.
- Loading of the core.
- Embossing on Plain Paper.
- Perforation
- Online slitting
- Cutting of paper with rewinding
- Gumming after rewinding
- Cut the logs of 32 inch or 56 inch on slicer into toilet roll of 4 inch(if no online slitting)
- Packaging of Goods

## Machinery \&Equipment's required:

| Name | Cost |
| :--- | :---: |
| Toilet Paper Roll Machine | 315000 |
| Total | $3,15,000$ |

Cost of the machine is exclusive of GST \& value of the machine varies with the change in batch size.

## Land \&Building required:

Land required 500 Square Feet (approx.)
Approximate construction cost for the same is 250000 . (approx.)

## Labour Requirement:

3 Manpower is required for Toilet Paper Roll unit.
Includes:
1 skilled Labour

## 2 Unskilled Labour

## Raw Material Requirement of Toilet Paper Roll

## Types of raw material

1. Soft
2. Hard

Raw material of toilet paper roll is available in the market
Soft Paper (cost per KG) $=$ Rs.70-72
Hard Paper (cost per KG) $=$ Rs.60-64

## Toilet Paper Roll License \&registration

## For Proprietor:

- Obtain the GST registration.
- Fire/ Pollution Registration as required.
- Choice of a Brand Name of the product and secure the name with Trademark if required.

## Implementation Schedule

| S.N. | Activity | Time Required <br> (in Months) |
| :---: | :--- | :---: |
