

With the humble beginning, he is consciously treading the path of Success

Bee-box manufacturing consists of a broad range of processing and packaging operations. The size and complexity of these operations vary from small plants employing few people to larger scale honey processing ventures. Products range from large-volume to small scale packaging, depending on a large to lower-volume specialties.

This B. Tech degree holder chose to take up a career in honey, which is a popular source of nutrition (particularly when other foods are scarce) and rural communities can make good money by selling honey to urbanites. He came to know about the PMEGP from an advertisement in the print media. To pursue his enterprise, he availed a bank loan for the project cost of Rs. 6.10 lakh from Allahabad Bank.

Coming from humble beginning, he is consciously
