

Growing Organic Way

Knowing hazards of chemicals and chemical fertilizers, farmers are switching over to vermi compost which is simultaneously providing employment opportunities for many entrepreneurs like Matta Mamatha owner of M/s Nice Bio organics, manufacturing vermi compost.

The soil from vermin compost is used as an organic fertilizer. It is rich in vital plant nutrients and is great as soil conditions, which is organic and need for houseplants, gardens and potting mixes.

Smt. Matta Mamatha who passed SSC pass, established her unit M/s Nice Bio-organics Muthugadem village by availing bank loan from Central Bank of India with Project cost of Rs.15.00 lakh.

Her perseverance, devotion to the venture has paid off today. She is successful vermin compost entrepreneur. The turnover of the unit has doubled in addition to her capacity to provide employment to 15 people at M/s Nice Bio-organics.
